

RHEVISION TECHNOLOGY AWARDED CENTER FOR COMMERCIALIZATION OF ADVANCED TECHNOLOGIES (CCAT) CONTRACT

SAN DIEGO, Calif. – September 16, 2009: Rhevision Technology, Inc., a leading optics company that has developed and manufactured the world’s most powerful fluidic lens, announced today it has been awarded a contract with the Center For Commercialization of Advanced Technologies (CCAT). “We very much appreciate the support that CCAT has provided Rhevision through the years” said Gary Shields, Chairman, President and CEO of Rhevision. “The Company was an earlier recipient of a CCAT contract and we are delighted that the progress we’ve been able to achieve supported CCAT’s decision to provide a new award to us. This contract will allow us to design and produce a new generation of our fluidic lens that will define all of our future lenses” Mr. Shields added.

“We are pleased to award this new contract to Rhevision Technology” said Thomas Sheffer, Program Director for CCAT. “We’ve been impressed with Rhevision’s development and proud to be a continuing supporter of the company” he added.

About Rhevision

Rhevision Technology, Inc., founded in 2006, is a premier optical technology company located in San Diego, California. Rhevision invented and has developed the most advanced liquid lens.
